Independence
Day

Celebrating Achievement Recognizing Women in Business

We are proud to share that our CEO, Faiza Bhamani, has been honored with a prestigious Women in Business Recognition Award for her outstanding contributions in the field of Applied Behavior Analysis (ABA) and Autism support in Pakistan.

This award not only highlights her dedication to creating inclusive opportunities for children and families but also celebrates her vision of empowering women and driving meaningful change through Umatter.

At Umatter, we believe this recognition is a reflection of the collective effort of our team, families, and community who continue to support our mission. Together, we are making a lasting impact and setting new standards for growth, empowerment, and hope.

Building Skills Through Group Activities

The group activity for both the early and intermediate groups focused on desensitization towards living things, and we chose a turtle for this session. The children learned about the turtle's body parts, the difference between shore and water animals, and how to feed them. They were very excited and showed great eagerness to touch and interact with the turtle.

Remedial Therapy at Umatter

Remedial therapy at Umatter is designed to support children who face challenges in areas such as reading, writing, comprehension, and mathematics.

Through structured, individualized sessions, our therapists work on strengthening core academic skills while also boosting confidence and motivation.

The goal of remedial therapy is not only to bridge learning gaps but also to help children discover their unique strengths and learning styles. By providing a nurturing and supportive environment, we ensure that every child is given the opportunity to thrive academically and personally.

Independence Day at Umatter Day

In August, Umatter proudly celebrated Pakistan's Independence Day with our students, parents, and team. The event was filled with patriotic spirit, joy, and togetherness, as everyone came together to honor our nation's journey of resilience and unity.
